

## Localforce Vietcong TOE

The source material used to derive this Battlefield TOE was from several sources. Squads were used at a 1-1 ratio while crew served LMG/HMG/Mortars were used at a 2 to 1 ratio as stated in the BF rulebook

This Vietcong TOE contains the Localforce VC organization and covers the period 1961 to 1968. Each Localforce VC Regiment contained 2-3 VC battalions.

Local Force Vietcong were mainly farmers by day and guerrillas by night. They protected hamlets containing arms caches and logistical supplies used by the Mainforce VC and NVA units operating in South Vietnam. Typically, they were not as well equipped and their discipline varied by province. Their TOE varied greatly by what was available, some units using old WW2 weapons mixed with an assortment of modern weaponry.
