

## Mainforce Vietcong TOE

The source material used to derive this Battlefield TOE was from several sources. Squads were used at a 1-1 ratio while crew served LMG/HMG/Mortars were used at a 2 to 1 ratio as stated in the BF rulebook

This Vietcong TOE contains the Mainforce VC organization and covers the period 1961 to 1968, which more closely follows the NVA TOE. Each Mainforce VC Regiment contained 2 battalions and had regimental support units.

Mainforce Vietcong units were comprised of more hardened troops of greater discipline than the localforce Vietcong. Mainforce VC units saw many varied assignments, everything from provincial security of fortified strongpoints to assaults on western firebases.
