

U.S. Armored Divisions - Tank Types

ME-01 is the light tank company of an armored battalion. They are normally equipped with the M5A1 Stuart. "Chaffee" indicates the month in which M24 Chaffee light tanks started to re-equip the company.

ME-02 is the medium tank company of an armored battalion. The numbers are the average strength of a medium tank company for Battlefront WWII. The first is the number of 75mm Shermans in each company, and the second is the number of 76mm Shermans in each company.

ME-11 is the armored cavalry troop that is normally attached to a combat command. Chaffees replaced Stuarts in these formations before the light tank companies.
